## OUR COMMITMENTS & CERTIFICATIONS

At CORE Aviation, we're not just dedicated to providing exceptional service — we're also committed to upholding the highest industry standards. This dedication is recognized in our prestigious certifications.

### ASA-100 Accreditation

CORE Aviation is proud to be accredited with the Aviation Suppliers Association's ASA-100 standard. This certification underscores our unwavering commitment to quality and safety in the distribution of aviation parts. Our adherence to the stringent ASA-100 requirements ensures that every transaction is backed by the utmost in quality assurance and traceability.

### Service-Disabled Veteran-Owned Certification

In recognition of our leadership and operational contributions by veterans, CORE Aviation has been officially certified as a Service-Disabled Veteran-Owned Small Business (SDVOSB) by the U.S. Small Business Administration. This distinction speaks to our core values of service, integrity, and excellence — principles that have guided us from our military service to the heart of the aviation industry.

These certifications represent our pledge to meet your aviation needs with certified excellence and veteran-led dedication.
